

Neurodivergent. Empowered

Neuro-affirming support, in person and online

FAQ: What is the model?

Individualised neuro-affirming, interest-based support delivered in a shared environment.

You belong.
You matter.
You are enough.

1. NOT A SOCIAL GROUP

We do not deliver this as a standard social group or mainstream recreational group.

Our model is individualised neuro-affirming, interest-based capacity-building support delivered in a shared environment.

Support is built around the person.

2. INDIVIDUAL PLAN

- ✓ NDIS goals
- ✓ communication profile
- ✓ sensory needs
- ✓ regulation needs
- ✓ safety considerations
- ✓ capacity-building focus

Shared space. Individual plan.

3. REAL-TIME CAPACITY BUILDING

The environment gives participants supported opportunities to practise skills that are hard to build in isolation.

communication

flexibility

emotional regulation

peer connection

self-advocacy

confidence

community participation

meaningful choice and belonging.

Participants practise these skills with real support, real relationships and real-time adjustment from our team.

Connection. Growth. Belonging.
